Login Page

The login page features a dark green sidebar on the left with the Flash ID logo and tagline 'Secure Digital Identity Platform'. Below the logo, the text 'Fast. Secured. Verified.' is displayed, followed by a brief description: 'Create your FlashID account and take control of your digital identity.' Three key features are highlighted in rounded boxes: 'Instant Verification' (verify in seconds with government-backed credentials), 'Government Verified' (trusted identity verification backed by official institutions), and 'Secure Credential Sharing' (share credentials safely with trusted banks and institutions). At the bottom of the sidebar, it states 'Trusted by citizens. Secured for you. Proudly South African'.

The main content area is a light yellow background with a white login card. The card has a heading 'Welcome back' and a subheading 'Log into your FlashID account.' Below this are two input fields: 'Email:' and 'Password:'. A dark green 'Login' button with a user icon is positioned below the password field. At the bottom of the card, there are two links: 'Forgot password?' and 'Don't have an account? Register'.

Onboard Citizen Page

The onboarding page has a dark green sidebar on the left with the Flash ID logo and tagline 'Secure Digital Identity Platform'. Below the logo, the text 'CITIZEN PORTAL' is displayed, followed by a list of navigation items: 'Dashboard', 'My Credentials', 'Share QR Code', 'Notifications', 'Verification History', and 'Privacy Settings'. At the bottom of the sidebar, there is a green circular button.

The main content area is a light yellow background with a white onboarding card. The card has a heading 'Onboard Citizen' and a subheading 'Verify a citizen, capture consent, and create a pending FlashID account.' Below this are three main sections:

- Retrieve Identity Record:** A section with a search icon and the text 'Retrieve Identity Record'. It includes a 'Citizen ID Number' input field with a placeholder 'Enter South African ID number'. Below this is a checkbox 'Citizen has provided explicit consent to retrieve Identity Record.' and a dark green button 'Retrieve from Government Registry'.
- Onboarding Status:** A section with a checkmark icon and the text 'Onboarding Status'. It lists five steps, each with a circular progress indicator: 'Identity record retrieved', 'Consent captured', 'Contact details captured', 'Pending account created', and 'Activation code sent'.
- Capture Contact Details:** A section with a clipboard icon and the text 'Capture Contact Details'. It includes two input fields: 'Phone Number' with a placeholder '+27...' and 'Email Address' with a placeholder 'citizen@example.com'. Below these is a checkbox 'Citizen has provided explicit consent to create a FlashID account and receive an activation code.' and two buttons: 'Create Pending FlashID Account' (dark green) and 'Send Activation Code' (green).

At the bottom of the card is an 'Audit Log Preview' section with a text box stating 'Audit log will appear once a pending FlashID account is created.'

The screenshot shows the 'Flash ID' Citizen Dashboard. The left sidebar is dark green with a 'Flash ID' logo and a list of menu items: 'Dashboard' (selected), 'My Credentials', 'Share QR Code', 'Notifications', 'Verification History', and 'Privacy Settings'. The main content area is light beige. At the top, it says 'Citizen Dashboard' and 'View and manage your digital identity wallet.' Below this, there's a large white rounded rectangle with a yellow circle containing a crossed-out dollar sign icon. The text inside reads 'Page Under Construction' followed by 'This part of FlashID is still being built. The foundations are in, the tools are out, and the pixels are trying their best.' At the bottom of this rectangle is a green button with a gear icon and the text 'Coming soon'. In the top right corner, there's a dark green circle with a white checkmark and a dropdown arrow.

Wireframe Documentation

1. Screen Layout

Login Page: It has a two-panel layout. The left panel highlights the FlashID brand, add taglines, and highlights the three features of the future system. Then the right panel contains a centered card with email and password input fields. It also contains a login button and links for forgot password and register.

Register Page: It is like the Login page, where it also has a two-panel layout. It also has the exact same left panel. The right panel shows different input fields such as South African ID, username, password and password confirmation.

Under Construction Page: It uses authenticated app shell just comes with a collapsible dark green sidebar on the left and it also has the main content area on the right. Right now it only shows “Page Under Construction” heading and a “Coming soon” badge.

Onboard Citizen Page: This page has an Authenticated Layer. The content is split into a wide left column, workflow steps, and a narrow right panel, onboarding checklist. The left column contains three cards: Retrieve Identity, Capture Context Details, Audit Log Preview (Below).

Register Institution Page: This page also has an Authenticated Layer. The main content is on the right where there is a centered white card titled “Register Institution”, followed by four fields: Institution Name, Institution Type, Verification Number and Admin ID. Then at the bottom has the Register button.

View Institution Page: This page also has an Authenticated Layer. This page includes a full width search bar that comes with a heading “Registered Institutions”. There is no results.

2. Navigation Flow

The unauthenticated users will enter via the Login and Register page, both will lead to the dashboard page which is under construction for now. From dashboard sidebar, depending on which user you are, authenticated users will be able to navigate to Onboard Citizen, View Institution and Register Institution. The rest of the available navigations in sidebar are currently under construction.

3. Component Placement

Sidebar: This is only used by authenticated users. It is a fixed left panel, dark green. It will contain the FlashID logo and contains a Citizen Portal group with navigation links. Also, it includes Security group with navigation links. There is also a circular avatar at the bottom to show the name of the user etc. There is an arrow icon that collapse the sidebar.

Page headers: Each authenticated page will show a bold page title and a one-line subtitle directly below the top bar. There is also a fixed user avatar on the top-right of the main area

Form fields: All inputs are labeled above the input. It comes with helper text beneath where validation rules apply. Buttons with full width and dark green colour are the primary actions. Then muted green fills for secondary actions.

Status Panel: A status guide that is on the right side. Which is a card that list five sequential onboarding steps with circle icons. This help users see when the completion will happen.

4. User Interaction Points

Page	Action	Feedback
Login	Enter Email + Enter Password + Click Login Button	Authenticated session, then redirect to Dashboard
Register	Enter Fields + Click Register Button	Account Creation success/fail message + rule validation. Redirect to Login
Onboard Citizen	Enter Phone/Email + Consent Check Box	Onboarding checklist updates
Onboard Citizen	Enter ID + Consent Check Box (Retrieve from GOV Registry)	Identity record populated
Onboard Citizen	Click “Send Activation Code” Button	Activation code dispatched to citizen
Register Institution	Enter Fields + Click Register Button	Institution added to the platform
View Institutions	Enter in Search Bar	Filtered Institution List
Sidebar Links	Click unbuilt page links	Show Under Construction Page

5. Annotations

- Consent checkboxes on the Onboard Citizen page are mandatory gating controls. The retrieve and account-creation buttons are visually disabled until checked,

enforcing explicit citizen consent before any government registry query or account creation.

- Password rules on the Register page are displayed as inline helper text beneath the password field (min 10 chars, uppercase, lowercase, digit, special character), giving real-time guidance before submission.
- Onboarding Status panel acts as a live progress tracker which will show each step (Identity retrieved → Consent captured → Contact details captured → Pending account created → Activation code sent) reflects the current state of the workflow.
- Institution Type field uses a search-filtered dropdown rather than a free-text input, constraining entries to approved institution categories.
- Under Construction page uses a friendly holding message with a "Coming soon" pill badge, signaling to users that the feature is planned rather than broken.
- Page Under Construction is the fallback route for all sidebar items not yet implemented, keeping the navigation structure complete while the platform is developed incrementally.
