FlashID – A South African Digital ID Wallet

Welcome to FlashID

FlashID lets you carry a verified digital version of your South African ID and other credentials in one secure wallet on your phone or computer.

Instead of carrying a physical ID book or laminated card, FlashID allows you to access and use your digital credentials when you need to verify who you are.

FlashID is designed to make digital identity management simple, secure, and convenient.

This manual is written for users who may have no previous experience with digital wallets or digital identity verification.

With FlashID, you can:

- Create an account and sign in.
- Verify your identity.
- Access your digital identity wallet.
- View your credentials.
- Manage and use your credentials.
- Review activity associated with your account.
- Manage your account and security settings.

Create an Account & Sign In

If you are using FlashID for the first time, you need to create an account before using your digital wallet.

Create an Account

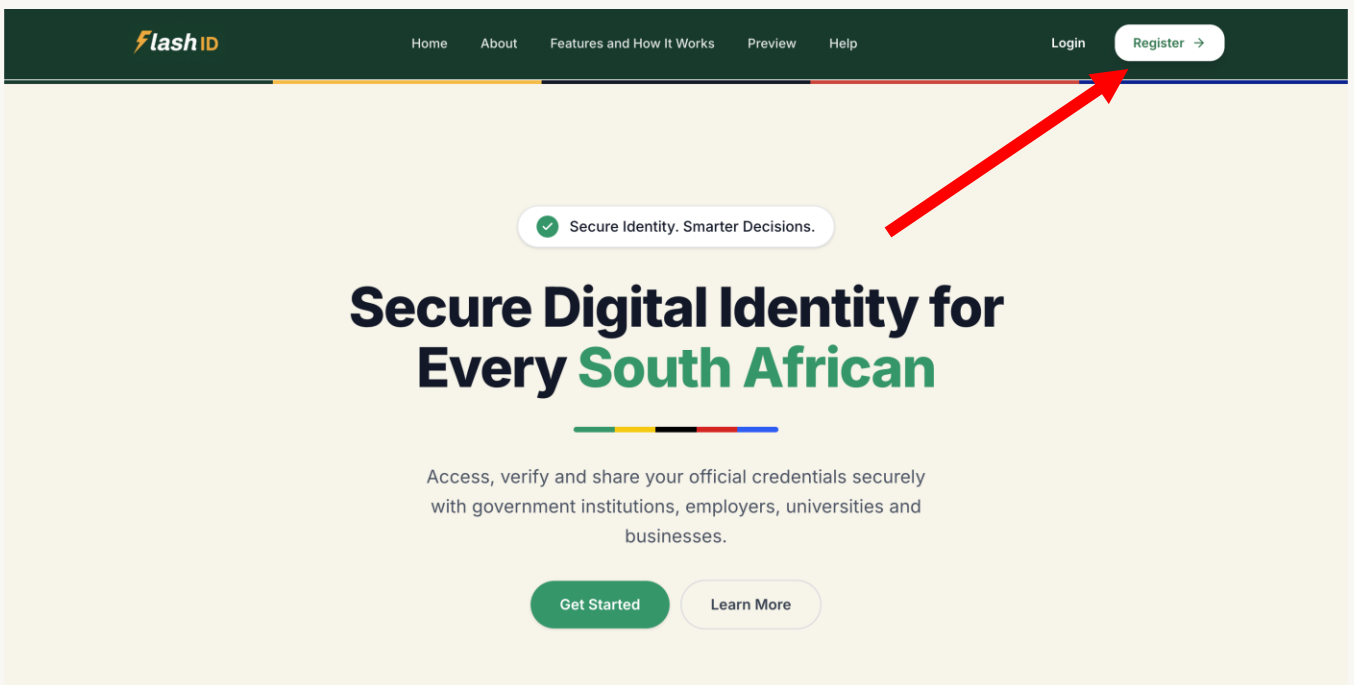

To create your FlashID account:

Step 1: Open FlashID

- Open the FlashID application or visit the FlashID website.

Step 2: Select Register

- On the welcome or login screen, select Register.

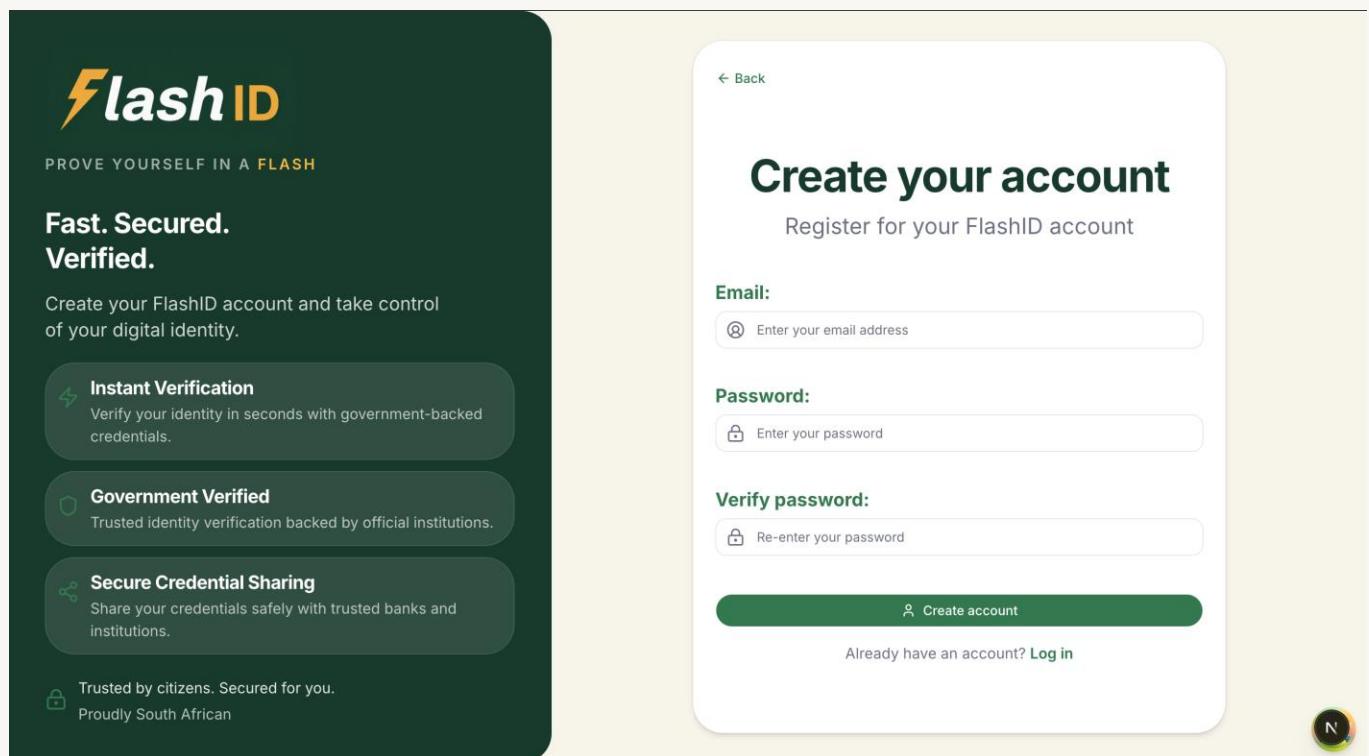

Step 3: Enter your email address

- Enter the email address that you want to use for your FlashID account.
- Make sure that you enter the correct email address, as it will be associated with your account.

Step 4: Choose a password

- Create a password for your account.
- Verify your password

Step 5: Click the Create Account button

- Select Click Account to create your account.
- Once registration is successful, you will be signed in and taken to your dashboard.

Sign In

If you already have a FlashID account:

- Open the FlashID application or website.
- Enter your registered email address.
- Enter your password.
- Select Log In.
- Once authentication is successful, you will be taken to your FlashID dashboard.

Your dashboard provides access to your wallet and the features available to your account.

PROVE YOURSELF IN A **FLASH**

**Fast. Secured.
Verified.**

Create your FlashID account and take control of your digital identity.

Instant Verification

Verify your identity in seconds with government-backed credentials.

Government Verified

Trusted identity verification backed by official institutions.

Secure Credential Sharing

Share your credentials safely with trusted banks and institutions.

Trusted by citizens. Secured for you.
Proudly South African

Your dashboard

After signing in, you are taken to your FlashID dashboard. The dashboard provides an overview of your digital identity wallet and gives you access to the main features of FlashID.

Dashboard

Your dashboard is the main starting point for managing your FlashID account.

From the dashboard, you can access areas such as:

- Your digital credentials.
- Credential management.
- Recent account activity.
- Account and security features.

The dashboard is designed to give you an overview of your identity information without requiring you to navigate through multiple screens.

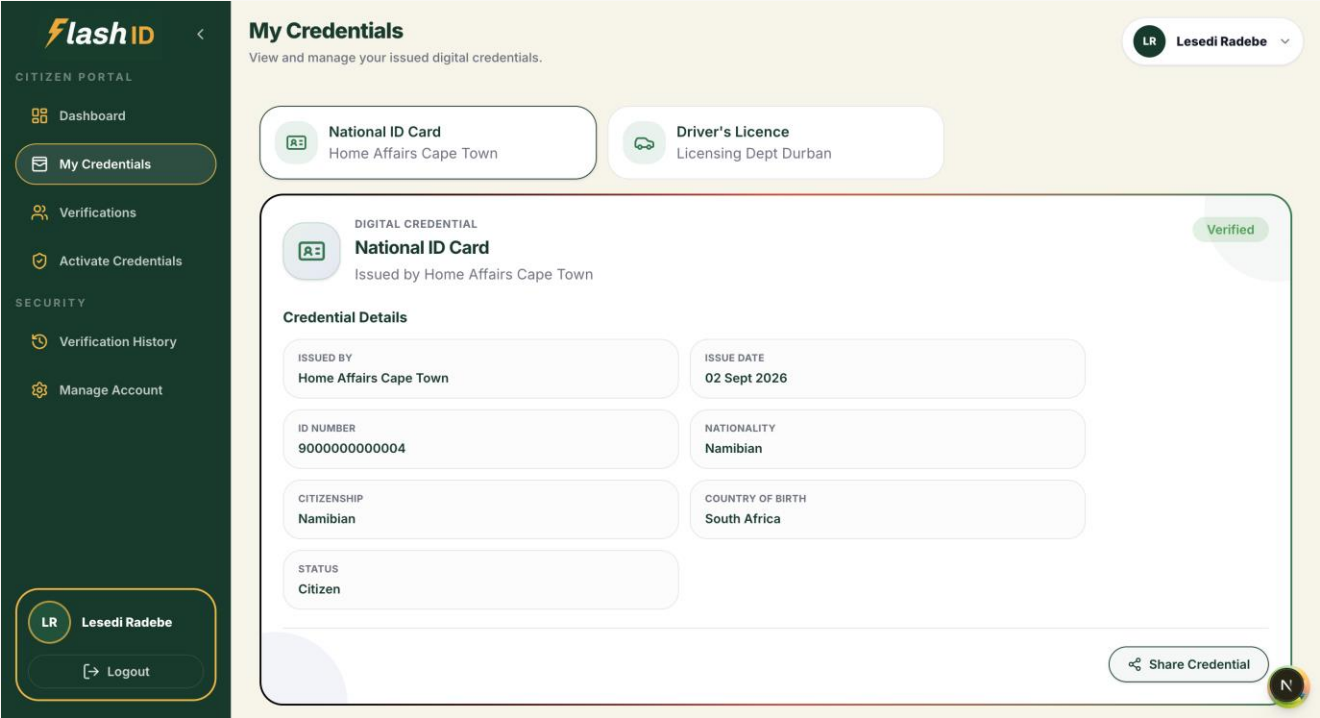

Accessing Your Credentials

Your credentials are available through your digital wallet.

Select the appropriate wallet or credential area from the dashboard to view the credentials associated with your account.

You can also click on the My Credentials tab from the navigation bar, which will take you to the My Credentials page.

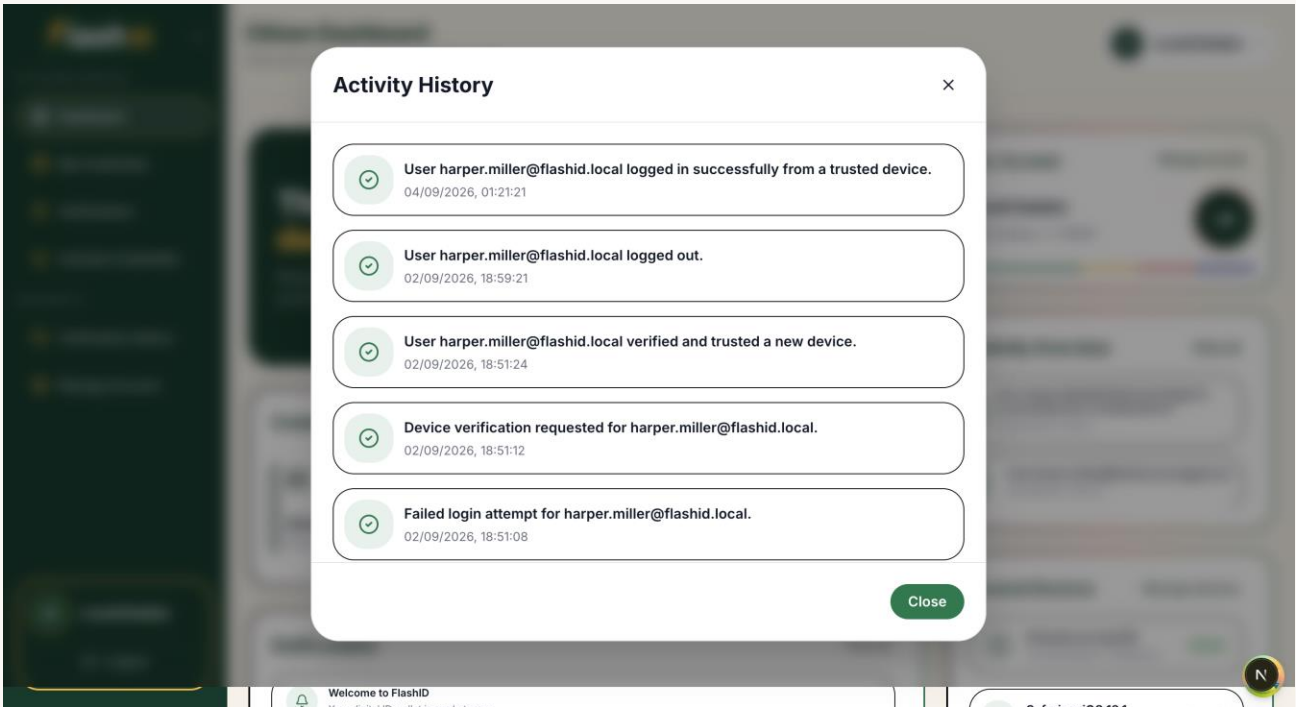

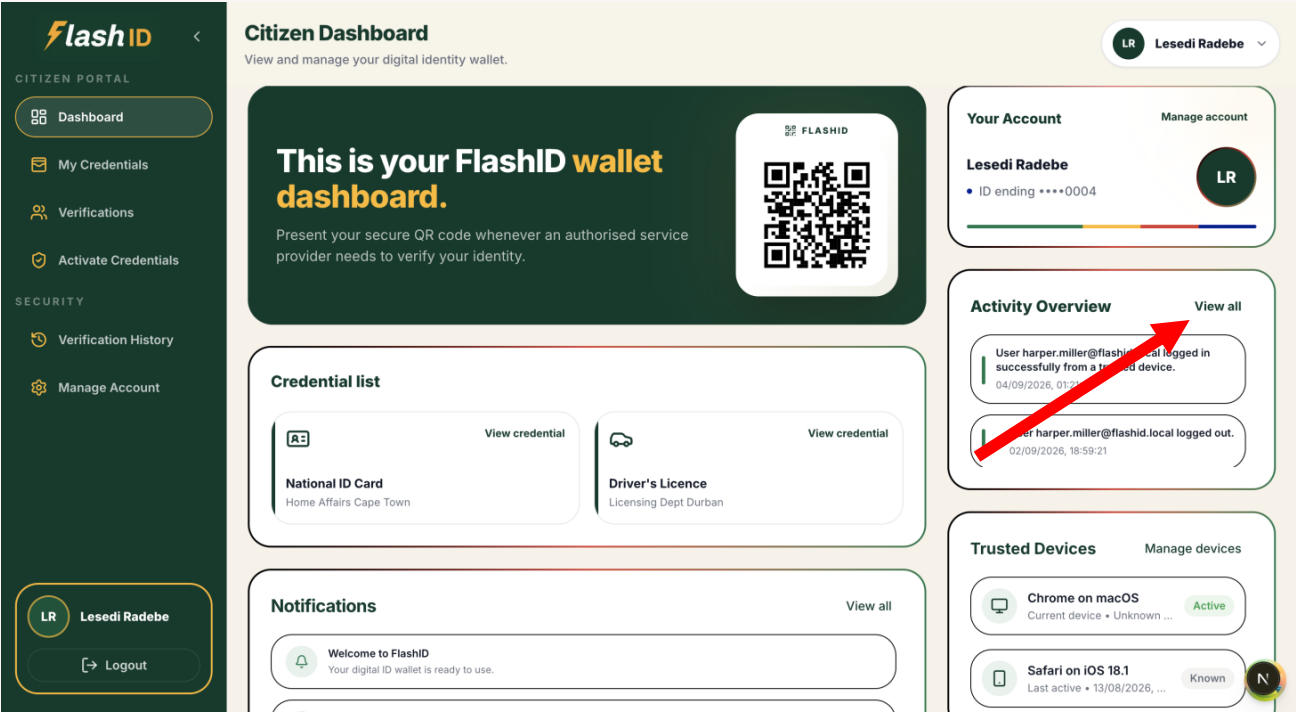

Depending on the credentials available to your account, you may be able to view information associated with your digital identity.

Recent Activity

FlashID provides an activity area where you can review recent events associated with your account.

Activity can help you understand what has recently happened within your wallet.

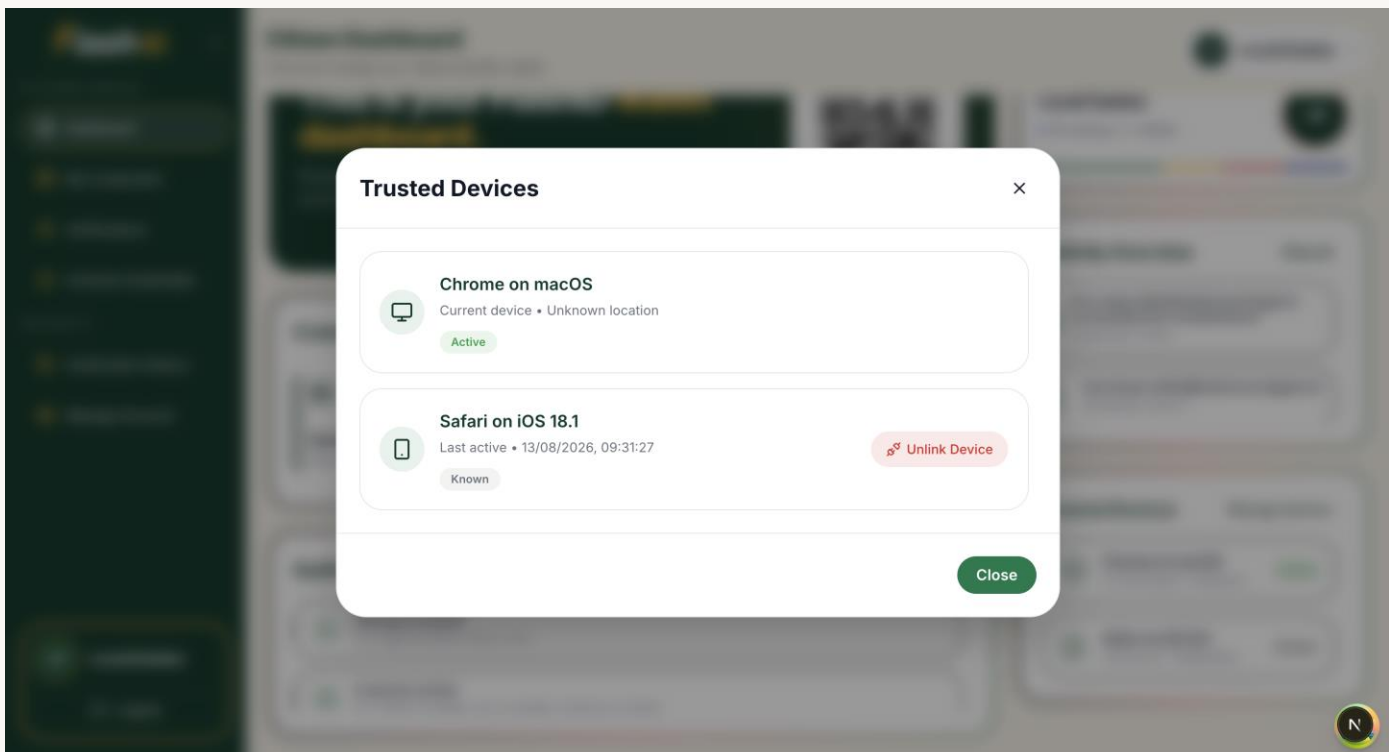

Trusted Devices

FlashID can use trusted-device functionality to help protect access to your account.

A trusted device is a device that has been recognised or approved for use with your FlashID account.

When managing trusted devices:

- Navigate to Trusted Devices.
- Review the devices associated with your account.
- Check that the devices listed are familiar to you.
- Unlink device if needed.

Sharing or Using a credential

When you need to provide verified information, FlashID can be used to access the relevant credential.

Before sharing information:

- Check which credential is being requested.
- Review the information that will be provided.
- Confirm that you are comfortable with the information being shared.
- Continue with the verification or sharing process.

Only provide the information required for the purpose of the verification.

The screenshot displays the 'FlashID' application interface. On the left is a dark green sidebar with navigation options: 'CITIZEN PORTAL' (Dashboard, My Credentials, Verifications, Activate Credentials), 'SECURITY' (Verification History, Manage Account), and a user profile section for 'Lesedi Radebe' with a 'Logout' button. The main area is titled 'My Credentials' and shows two credential cards: 'National ID Card' (issued by Home Affairs Cape Town) and 'Driver's Licence' (issued by Licensing Dept Durban). The 'National ID Card' card is expanded, showing 'DIGITAL CREDENTIAL' status and 'Verified' badge. Below this, 'Credential Details' are listed in a grid: Issued by (Home Affairs Cape Town), Issue Date (02 Sept 2026), ID Number (90000000000004), Nationality (Namibian), Citizenship (Namibian), Country of Birth (South Africa), and Status (Citizen). A red arrow points to the 'Share Credential' button at the bottom right of the expanded card.

Credential Details	
ISSUED BY Home Affairs Cape Town	ISSUE DATE 02 Sept 2026
ID NUMBER 90000000000004	NATIONALITY Namibian
CITIZENSHIP Namibian	COUNTRY OF BIRTH South Africa
STATUS Citizen

Notifications

Notifications provide information about important events or actions that may require your attention.

When a notification appears:

- Open the notification.
- Read the information provided.

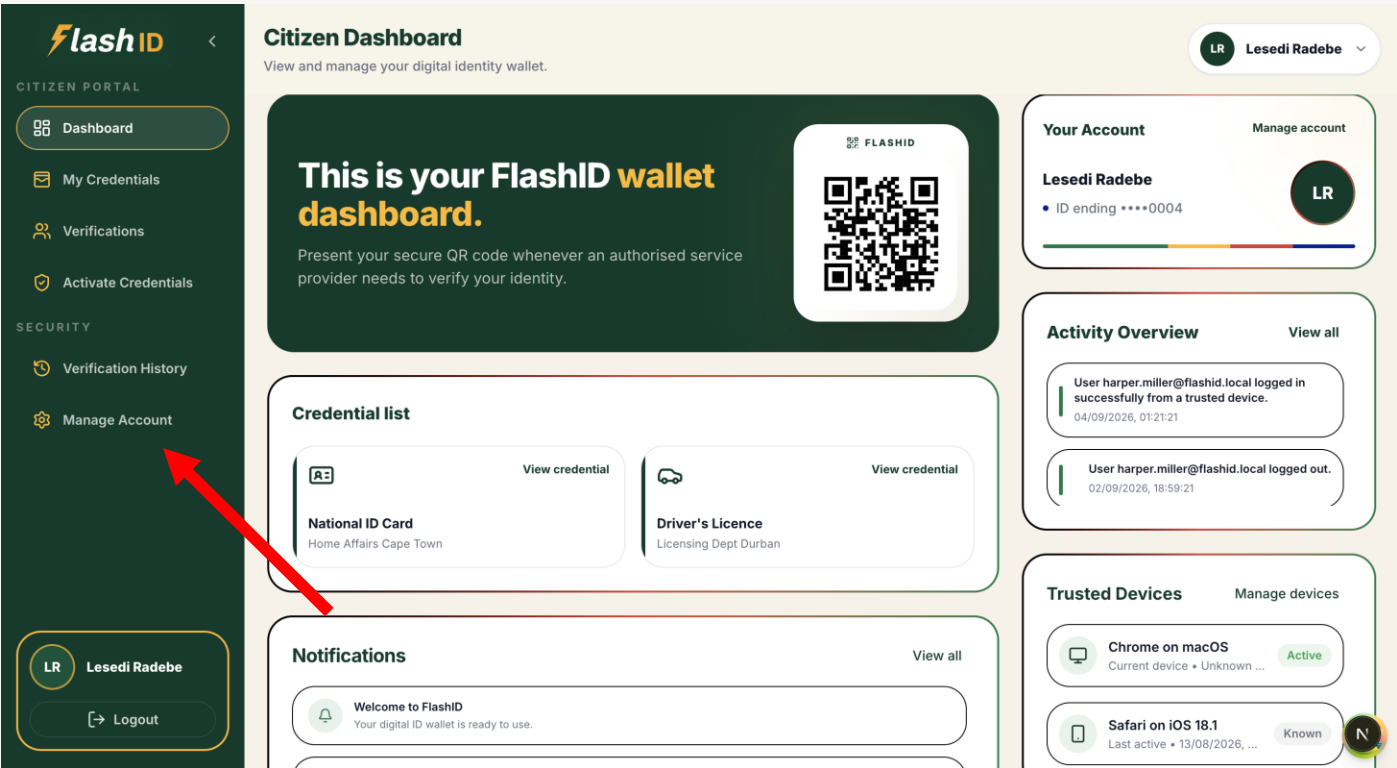

Manage Account Settings

Account Settings allows you to manage information associated with your FlashID account.

You can use this area when you need to update your account details or manage your account.

Click on the Manage Account tab on the navigation bar to be get to the manage account page.

The available settings are displayed within the account management area.

Updating your email address

You can update the email associated with your account through your account settings.

To update your email:

- Open Account Settings.
- Select the option to update your email address.
- Enter your current password.
- Enter your new email address.
- Enter the otp that is sent to that email address
- Save or confirm the change.

Make sure that you enter an email address that you can access.

The screenshot displays the 'Manage Account' interface for FlashID. The left sidebar contains navigation links for 'CITIZEN PORTAL' (Dashboard, My Credentials, Verifications, Activate Credentials) and 'SECURITY' (Verification History, Manage Account). The main content area is titled 'Manage Account' and includes a subtitle 'Manage your profile, security settings, and trusted devices.' The user's name 'Lesedi Radebe' is shown in the top right corner. The interface is divided into four main sections: 'Account' (showing personal details like Full Name, ID Ending, Email Address, Phone Number, Date of Birth, Member Since, Last Login, and Account Status), 'Trusted Devices' (showing active devices like Chrome on macOS and Safari on iOS 18.1), 'Update Email' (with instructions and checkboxes for changing email, verifying new email, and receiving notifications), and 'Update Password' (with instructions and checkboxes for changing password, protecting account, and improving security). Each update section has a corresponding 'Update' button. A 'Logout' button is located in the bottom left corner of the sidebar.

Updating your password

You can manage your account password through the account settings area.

To update your password:

- Open Account Settings.
- Select Update Password.
- Enter current password.
- Enter new password
- Confirm the change.

The screenshot displays the 'Flash ID' 'Manage Account' page. A modal window titled 'Update Password' is centered on the screen, overlaying the 'Account' and 'Trusted Devices' sections. The modal contains the following elements:

- Update Password** (Title)
- Keep your account secure with a strong password. (Instruction)
- Current password** (Label) with an input field.
- New password** (Label) with an input field.
- Confirm new password** (Label) with an input field.
- Update Password** (Green button)

The background interface includes a dark sidebar with navigation links: Dashboard, My Credentials, Verifications, Activate Credentials, Verification History, and Manage Account (highlighted). The main content area shows account details (Full Name, ID Ending, Email Address, Phone Number, Date of Birth, Member Since, Last Login, Account Status) and trusted devices (Chrome on macOS, Safari on iOS 18.1). A bottom banner reads: SECURE. | INSTANT. | YOURS. | SOUTH AFRICA.

Deleting Your Account

If you decide that you no longer want to use FlashID, the account settings area may provide an option to delete your account.

If you choose to continue:

- Open **Account Settings**.
- Select the account deletion option.
- Read the warning or confirmation message.
- Type out the word 'DELETE'
- Confirm deletion
